SUMMARY

Software Engineer with 1+ year of experience in full-stack web development, working primarily with React.js, Node.js, Laravel, and Sails.js. I enjoy building things end-to-end from designing REST APIs and optimizing slow database queries to shipping responsive frontends. Comfortable with MySQL, MongoDB, PostgreSQL, and Redis, and have built real-time features using Socket.IO in production.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, PHP, Laravel, Sails.js, REST API, Socket.IO, WebSockets

Databases & Auth: MySQL, PostgreSQL, MongoDB, Redis, Mongoose, JWT, OAuth2

Tools & Technology: Docker, GitHub Actions, AWS, Git, GitHub, Postman, Figma, Claude Code

EXPERIENCE

Software Engineer — Jul 2025 - Present

Logistic Infotech Pvt. Ltd. — Rajkot, Gujarat

(Internship: Dec 2024 - Jun 2025 | Full-time: Jul 2025 - Present)

- Built and maintained web applications using React.js, Laravel, and Sails.js across multiple modules
- Designed and implemented REST APIs for business logic and seamless frontend integration
- Optimized MySQL and PostgreSQL queries, improving response time and overall performance
- Collaborated with frontend team to integrate APIs and enhance overall user experience
- Improved backend data handling and system efficiency for better reliability

PROJECTS

CodeLink -Live code sharing platform (React, Node.js, Socket.IO, Redis, Agora, MongoDB) GitHub — May 2024

- Created a real-time code-sharing platform for live collaboration using React and Ace Editor.
- Integrated Agora WebRTC for multi-user video calling alongside live code collaboration
- Utilized Socket.IO for real-time communication and Redis for efficient code storage.

T-Hub - T-Shirt Merchant Store (React.js, Node.js, MongoDB, Tailwind CSS, Razorpay) GitHub — Jan 2024

- Built a full-featured MERN stack e-commerce platform with product catalog, cart, and order management
- Integrated Razorpay payment gateway for online transactions with real-time payment status updates
- Designed a fully responsive UI using Tailwind CSS with optimized component structure and state management via Redux

EDUCATION

B.Tech in Computer Engineering — CGPA : 7.4

RK University, Rajkot — 2021 – 2025
